Paul O'Shaughnessy's Quartermaster's Report - October Staff Meeting

A quick update:

- I have two cartridge boxes in process - adding blocks and brass garter badges. Should be ready by end of October. I have enough Tom Morrissey maple to make another six to eight blocks.
- I ordered 12 brass garter badges for cartridge boxes from Roy Najecki. These will be ready by late October or early November. We have about six remaining in stock, so not urgent.
- I have three Miroku Brown Bess guns that I am reassembling from pieces and parts. Looks like I will get two good ones from the three by late October or early November. I am pretty well stocked in spare springs and other parts so if there are issues with anyone's musket, I should be able to address.
- Mike Graves - if you are up for making musket slings, that would be great. The straps I have been using are a bit lightweight so tend to stretch. In particular, I have one musket in need of a white sling. If one could make it to Fairholm, that would be cool but not essential.
- I will need to make new belt plates over the winter - we will probably otherwise run out sometime in 2026 if recruiting is solid. I still have about 10 engraved blanks.
- I now have stainless steel pins in a variety of diameters so can fashion replacements for missing pins to hold hardware on muskets. Just let me know if people are missing any. This may be something to check over the winter.
- I am down to white strap leather sufficient for about three/four more shoulder belts, then I'm out.
- We are in good shape for tri-tools, pick and whisk, flints, etc. I want to change over to the newer style hammer stalls, as they are much less floppy. Does someone have a leather pattern for those?
